Getting Started with Your iPad: Email

In order to send and receive email on your iPad, you will need to add your email account information to Mail.

Note: You will need a wireless connection in order to set up email from the iPad.

Add Your FDU Email Account to the iPad

1. Tap the Mail icon on your iPad Home screen.

2. Select Other from the list of email providers.

3. Enter your name, FDU email & password, and description under New Account. Click Next.

4. Enter your Account information:
   Make sure IMAP is selected.
   Name: Your Name
   Email: Your FDU email address
   Description: FDU
   Host Name: mail.fdu.edu
   Username: Your FDU email address
Password: Your FDU password
SMTP: mail.fdu.edu

5. Tap Next. Your email account information will be verified, and you will be able to send/receive email.

Add Additional Email Accounts

1. Tap the Settings icon on your iPad Home screen.
2. Select Mail, Contacts, Calendars, and tap Add Account…

3. Select Email Provider from the list.

4. Enter your Email Account Information: Name, Email, Password, and Description.

5. Tap Next. Your email account information will be verified, and you will be able to send/receive email.
